	Insert	Append
extraLargeArray	967ms	4ms
largeArray	7.594119 ms	739.159 µs
mediumArray	185.759 µs	190.991 µs
smallArray	80.759 µs	117.686 µs
tinyArray	38.831 µs	102.644 µs

The smaller the array the faster it processed. The reason for this is because there was far less to process the smaller the size of the array. The append section is much faster for each of the arrays
